Local and General

Happenings Here, There and Everywhere, Past Present and Future

Mr. and Mrs. Fred Lake, of Oyen, were Chinook visitors last Thursday.

Mrs. E. Cole, of Winnipeg, arrived in town last Friday, and will spend the winter months with her daughter, Mrs. (Rev.) G. Elliott. Bert Smith was in Calgary last week, having some dental work done.

Mr. Ernest Keys, of Hughenden, Alta., was a visitor this week.

Mr. S. W. Spicer, manager of the Alberta Pacific Elevator, left last Friday for points in Saskatchewan. During his absence the elevator will be under the management of Mr. Iven Cooks, of Oyen.

Miss E. McRae is visiting her aunt and uncle, Mr. and Mrs. J. D. McLean.

Mrs. O. Hinds spent the weekend visiting relatives in Youngstown.

Mr. Lorne Proudfoot is in Calgary this week attending the U.F.A. Secretaries Convention.

Mr. and Mrs. Gordon and Mr. and Mrs. M. Maulty were visited by a Charivari party last Tuesday evening.

Mrs. A. F. Vaughan and daughter Estella, of Rollinson, are spending a few days in Calgary.

Mr. A. McAllister left on Monday for Saskatoon.

Rev. and Mrs. Geo. Elliott attended the session of the Religious Education Conference held at Delia on Tuesday.

Mr. H. J. Adames, Clerk of the Court at Hanna, was in town last Monday.

Mr. M. Maulty returned last week from Vancouver with his bride. The Advance join with their many friends in wishing Mr. and Mrs. Maulty much happiness in their new sphere of life.

A picture show and dance will be held in the Arm's Hall on Friday night. Turn out and spend an enjoyable evening.

Rev. Geo. Elliott and Mr. J. R. Miller were visitors in Oyen yesterday.

It is not too early to do your Christmas shopping!

Obituary

It is with regret that we announce the death of the two daughters of Mr. B. Garrison Irene and Gladys Garrison which occurred at their home in miles north west of Chinook, following an illness of typhoid fever. Irene who was thirteen years of age, passed away last Thursday. Gladys was fifteen years old, and died on Monday. The funeral was held in the Youngstown cemetery on Tuesday afternoon.

MEETING FOR NOMINATIONS FOR VILLAGE COUNCILLORS

Monday, December 6th will be the day when nominations will be received for councillors for the village of Chinook. We have been informed that for the past number of years there has been little interest taken in public affairs by the ratepayers, and consequently it has been left to a few to shoulder the responsibilities of civic affairs. This should not be the case, for if a town is to be progressive, it should have every citizen interested in matters which are for the betterment of the town. If you want to see the town prosper, don't stand in the background, but turn out at the nomination meeting and nominate your man.

At the time of writing it has not been definitely decided whether the three retiring councillors, Messrs. D. V. Boyer, H. Meade and A. L. Robinson, will stand for re-election, but their past career in the council shows a good record. During their time of office they have made considerable improvements in the town. Today Chinook can boast of electric lights on Main Street, which is quite an asset to the town. The council have also improved the roads and sidewalks, all of which are a step in the right direction for a nicer town.

Mr. D. V. Boyer, who is reeve, has served on the Village Council for the past three years. Both on the council and various other ways, he has done useful public work, and without exaggeration we might add, "If there were more councillors of Mr. Boyer's type then the necessity for elections would be superfluous."

CHINOOK POLICE COURT

Wage Case

Fred Cowell sued R. Kingery for wages on Saturday last before Magistrate M. J. Hewitt. The evidence was rather conflicting and his worship reserved judgement.

Before Magistrate Hewitt, on Thursday, November 18, A. Lewis was fined fifteen dollars and costs when he was found guilty on the charge of assault upon the person of K. C. Fraser last Thursday morning.

Only wind is needed to spread rumors but for reliable news you must read your home paper. Subscribe for the Chinook Advance and get the news of the district.

Mr. Robert Smith was a visitor in Edmonton over the week-end.

Remember the picture show and dance on Friday night in Arm's Hall.

Prices Smashed!

Forms and Functions of Governments in Canada

Under a democratic form of government it is of the utmost importance that the masses of the people who constitute the democracy have a clear grasp and an intelligent understanding of the machinery and functions of government, and this is especially true in countries like Canada where the powers, responsibilities and functions of government are divided as between Federal, Provincial and municipal legislative and administrative bodies.

Important as it has always been that people should have an understanding of the political conditions under which they live and are governed, it is perhaps even more important today than at any previous period in history. In these times, when it would be both idle and foolish to deny that a spirit of unrest prevails, changes in the existing forms of government are being advocated in many quarters. Utopian but utterly impracticable ideas are advanced by some organizations; others urge a complete revolution along lines advocated by adherents of the One Big Union; some would have the Soviet system of Russia introduced; the cry of "self determination" is raised, although it is not very clear what calls for determination; and, in general, there is a re-grouping and re-alignment of the masses of the people in regard to matter political.

Because of these conditions, it is more important than ever before that there should be a clear understanding of the present system, methods and functions of government in Canada which these several bodies of opinion would alter, change, and, in some instances, absolutely destroy if they had their way.

It is unquestionably true that in these Western Provinces, where such a large percentage of the people have come from other lands where conditions and forms of government are quite different, much confusion exists as to the different spheres of government vested in the Federal Parliament at Ottawa and in the Legislative Assemblies of the various Provinces. Because of this, it has been suggested that a series of articles of a purely educational character dealing with government in Canada would be both valuable and timely.

For example, the newcomer, whether from the United States or some European country, finds it exceedingly difficult to understand the relation which exists between the British Crown and Governments in Canada. The immigrant from Europe, familiar with the old autocratic monarchial government in his native land, entertains the idea that somewhat similar conditions prevail in Canada, possibly even worse, and that Canada, as a possession of the British Crown, is ruled by governors appointed overseas. Incoming settlers from the United States, in many instances, have a vague and hazy notion that in Canada people do not enjoy the same liberties and principles of democratic responsible government prevailing across the line—that, because we are subjects of King George V, we do not enjoy complete independence of action, and many believe that Canada has to pay tribute or taxes to England.

The very fact that all legislation is enacted in the name of the King, that the Government is spoken of as the King's Government, and that the Royal Assent is required to all legislation passed before it becomes law, leads to a belief in many quarters that Canadians do not enjoy all the rights of self-government and as full exercise of all liberties as do the people of the United States or any other country.

As a matter of fact, King George V. exercises far less power in Canada than the President does in the United States. The King in England, or his representative, the Governor-General in Canada, or any of the Provincial Lieutenant-Governors, have the power to dismiss their ministers from office. But the President of the United States has the same power. In the United States, however, the people have no remedy except to elect a new President when the next election comes round, be that time long or short. In Canada, the people must be consulted in a general election immediately, and, if their verdict is in favor of the dismissed ministers, the Governor-General, or the Lieutenant-Governor, as the case may be, is recalled from office.

The King, or his representative, is obliged to accept as his ministers and advisers those men who are shown to have the confidence of the people through their election to Parliament or Legislature, and who command the support of a majority of all the members in Parliament or Legislature. The moment a Ministry loses the support of such a majority of the people's elected representatives, it must resign and make way for a new Ministry possessing such support. In the United States, on the other hand, the President personally selects his own cabinet of ministers, men who may, or may not, be the choice of the people, and men who may not command the support of a majority in Congress.

The Crown is a common tie binding all parts of the British Empire together, but the Crown does not, and cannot, legislate of itself, impose taxes, or enforce laws. These things can only be done by the elected representatives of the people and the courts of law which those representatives in their wisdom create. In a word, in no country do the people enjoy wider liberties or greater freedom of action than in Canada, both Federally and Provincially.

Must Accept Price Level Big Game Being Protected

\$3 Wheat Is Too Much For World To Pay

"The world has not the purchasing power to buy \$3 wheat," E. G. Nourse, head of agricultural sciences, Iowa State Agricultural College, said in an address before the Farmers' Bank of Eastern Iowa. He was discussing the farmers' strike and market conditions.

Deliberate marketing to keep pace with the fall of prices of things farmers must buy is a better remedy than the strike, Mr. Nourse said. Farmers must accept the general price level, but are now obliged to accept a like cut in the deflation process.

Playing cards have been taxed in England ever since 1615.

Alberta Taking Steps to Protect Bands of Antelope

Alberta will have a new animal park if the present plans of the Dominion game authorities are carried out successfully. Steps are being taken to provide some measure of protection for bands of antelope now running wild in the Brooks and Lake Muir districts, and it is expected that they will soon be added to the list of big-life zoos which the Federal Government is maintaining in the province.

There are about one hundred and seventy-five animals in the lot, and it is proposed to construct strong fences in which to enclose and protect them.

If a man never has anybody to tell him what he would do in his place, he is friendless.

Wealth in Old Stamps

Trunk Filled With Old Letters Worth A Fortune

An old trunk, decayed and crumbling to pieces, discovered by workmen in an attic in Philadelphia, containing nothing but bundles of letters, has been found to be worth a fortune in old stamps. "The man in the Street" would never recognize the worth of such a mass of apparent trash, but philatelists say the stamps on such old letters, crude, inartistic little stickers though they are, now are worth a king's ransom. Examination of a few of the letters reveals the fact that the entire collection of correspondence once occupied the attic in the home of a William Morris Meredith, a man of large acquaintance, who received letters from persons in all parts of the country and abroad.

WEAK, NERVOUS AND RUN DOWN

A Condition Afflicting Thousands of People—How to Get New Health.

There are thousands of people who are enduring the pain and discomfort of minor ills in the hope that the indisposition is only temporary and will be outgrown in time. Often such illnesses are not serious enough to require the attention of a doctor, but will respond to intelligent home treatment if a reliable remedy is used. Women, busy with a multitude of household cares, young women in offices or stores, or girls studying hard in school, easily fall a prey to that condition of bloodlessness known as anemia. The trouble need not be serious if prompt, effective measures are taken to check it in its early stages. Dr. Williams' Pink Pills will restore the elements needed to bring the blood back to strength, and since the blood regains its healthy quality the entire body will soon show the benefit. Among the many who have found benefit through the use of Dr. Williams' Pink Pills is Mrs. James J. Johnston, of Peterboro, Ont., who says: "I can personally strongly recommend Dr. Williams' Pink Pills because of what they have done for me. About two years ago I felt poorly, was terribly weak, nervous and run down. I was easily annoyed and worried, and my heart would flutter at the least exertion. I tried several remedies, but did not find a cure until I took Dr. Williams' Pink Pills. I took seven boxes in all and am now enjoying perfect health, and have gained in weight. I calculate the cost small when I think of the benefit I received, and I recommend the pills to all weak people."

Rich, red blood is the whole secret of good health, and from the first to the last dose Dr. Williams' Pink Pills enrich and purify the blood. You can get these pills through any medicine dealer or by mail at 50 cents per box or by mail at \$2.50 per dozen. Write to Dr. J. C. Williams, Medicine Co., Brockville, Ont.

Advocates Niagara Dam.
Dr. T. Kennard Thomson, consulting engineer, New York, in an address to the civic club of the University of Toronto, speaking of power development schemes at Niagara Falls, advocated the construction of a gigantic dam across the Niagara River four miles below the falls, thus forming an entirely new waterway having a potential "head" of 100 feet and capable of producing 2,000,000 horsepower. This power, Dr. Thomson said, should be divided equally between the United States and Canada at a yearly rental to each country of \$10 per horsepower produced.

Asthma Can Be Relieved. Its suffering is as needless as it is terrible to endure. After the relief it has given to the most stubborn cases no sufferer can doubt the effectiveness of Dr. J. D. Kellogg's (Dr. Kellogg's) Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

400 Sorts of Silk Worms. There are more than four hundred different varieties of moths which produce silken cocoons, and although the great majority of these are valueless from a commercial point of view, there are five kinds which are domesticated and several others which, though wild, have their cocoons collected for the sake of their silk.

Survey Director. Announcement is made by the Civil Service Commission that Dr. W. H. Collins, who, for a number of years, has been a geologist of the department of mines, has been appointed director of the geological survey.

Saskatchewan School Cadets. Of the school attendance population of Saskatchewan amounting to 161,326, 4,514 boys are members of school cadet corps, or a percentage of 2.79.

Love is seldom confessed until the evidence reaches the stage where making a confession is merely a matter of form.

Minard's Liniment For Diphtheria.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"
Made in Canada.

Origin of Word "Poltroon"

In Olden Days Meant Person Without Thumb.

The word "poltroon" has a rather interesting origin, having started out in life as poltroon, truncheon. Latin phrase, meaning one who had been deprived of his thumb. In the olden days when bows and arrows were the main weapon of the soldier, the thumb was a most essential part of the hand, for without it the archer could not hope to draw the bow with anything like good aim or exert his arm's full strength. To avoid military service many a man chopped off his own thumb or got his wife to perform the act for him. In time the man who did this bit of self-experiment became known as a "poltroon," and the last change to its present usage is easily traced.

"Pape's Diapiesin" for Stomach

"Pape's Diapiesin" is the quickest, surest relief for indigestion, Gases, Flatulency, Heartburn, Sourness, Fermentation or Stomach Disease caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without discomfort. Each box costs only 60 cents at drug store. Absolutely harmless and pleasant. Millions helped annually. Largest selling stomach corrector in world.

Alberta Wheat Movement.

Large quantities of wheat and other cereals are being moved daily from Alberta. Between four hundred and five hundred cars are being supplied daily by one railway. Complaints of car shortage, notwithstanding size of the crop this year, are practically nil.

Minard's Liniment For Garget in Cows.

Fight For Natural Resources.

Hon. J. R. Boyle, attorney-general of Alberta, has prepared a case along similar lines to that of the provincial treasurer of Manitoba, but, strange to say, without any co-operation. He is ready to launch a case in the courts to secure possession of the natural resources on behalf of the province of Alberta, and will institute such action, if the Dominion Government does not take action within a reasonable time.

Reindeer Meat For U.S.

Meat packers at Nome, Alaska, will be prepared to ship at least 6,000 reindeer carcasses to United States markets through Seattle next year, says Carl J. Lomen, of Nome.

CATARRH COLDS BRONCHITIS CURED WITHOUT DRUGS

It is really impossible to treat Catarrh, unless by inhaling the soothing germ-killing vapor of Catarrhazone. Its rich fragrant essence is breathed from the inhaler to every sore, diseased spot, the breathing organs. Not a single germ can escape the healing fumes of Catarrhazone, which acts on the infected linings of the nose and throat just as an antiseptic would act on a cut finger. You see, Catarrhazone soothes, cleanses, heals. It cannot fail to reach and cure Catarrh; it's simply a wonder on weak throats, bronchial coughs, deafness, buzzing ears, and all other symptoms of Catarrhal cold. Get Catarrhazone today. Complete outfit \$1.00 and is sufficient for three months' use. Smaller sizes 50c, all dealers or, Catarrhazone Co., Kingston, Ont., Canada.

W. N. U. 1343

To Eradicate Weeds

Weed Train Will Be Run Through Prairie Provinces.

Arrangements for the running of a "weed train" through Manitoba, Saskatchewan and Alberta for six weeks, commencing about the last week in January, were made by the Deputy Minister of Agriculture of the three provinces, who met in Saskatoon recently. The train will be equipped with all of the necessary material to demonstrate the growth of the various weeds of the prairie provinces through their various stages, as well as the best means of eradicating them.

The train will be composed of two lecture cars, a demonstration car, and a sleeper and diner for the personnel. It will be manned by representatives of the Departments of Agriculture of the provinces concerned, their colleges of agriculture, and the rural municipal associations. A representative of each province will accompany the train throughout its entire trip, although in each province the lecturers will be chosen from that province. It is planned to cover with the train this year as many as possible of the points on the Canadian Pacific Railway, and next year to take up the Canadian National lines. There will be two meetings a day. Two weeks will be spent in each province.

Rural Depopulation

Claims Although Fewer People on the Land, Production Has Not Decreased.

Referring to the numerous discussions on the subject of rural depopulation, Sir John Willison, in discussing it at the Canadian Club, Toronto, said that though there were fewer people on the land today than there were a few years ago, general production had not decreased—it had been multiplied by machinery. The supposition that farming was less profitable under present conditions than formerly was not supported by the facts, Sir John said.

Government meddling in business only produced confusion. Sir John added, and public regulation of prices produced a scarcity in the products affected and ultimately increased prices. Instead of the luxury tax there should be a one per cent. tax all around on sales, in Sir John's opinion.

Sask. Farmers Own Insurance Co.

The Agricultural Insurance Company organized last spring by Saskatchewan farmers, and owned and operated entirely by them, is making rapid progress, and its experience up to the present has been most gratifying. At the last report the company had yet to receive its first claim for loss by fire, and the hail insurance business of the last season brought satisfactory results. The company has already over one thousand farmer shareholders, its purpose being to provide a means by which the farmers of Saskatchewan can do their own business with their own money.

Agricultural Grant.

Saskatchewan's share of the Dominion Government's grant under the Agricultural Incentives Act for the present fiscal year will be \$81,728, the total grant for the nine provinces being \$1,100,000. The grant will be devoted to every branch of agricultural education, including research and extension work, post-graduate courses as well as elementary agricultural teaching.

Butter and Eggs in Storage.

According to report from the Bureau of Statistics, there were, in the month of October, more than 25,000,000 pounds of creamery butter, 20,000,000 pounds of cheese and 13,000,000 dozens of eggs in storage in Canada.

Complete in itself, Mother Graves' Pain Expeller does not require the assistance of any oil or medicine to make it effective. It does not fail to do its work.

The Aerial Bootlegger.

The hire of the aeroplane motor is now heard together with the hum of the speedy automobile along the international border, according to police authorities. Two unidentified planes are now plying their trade as "rum runners" not far from Estevan, Sask. The aviators are believed to be Americans and their aeroplane is unregistered. So far the police have been helpless in their efforts to nab the aviators.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

CASCARETS

"They Work while you Sleep"

Have you no time for exercise? Then do the next best thing. Take Cascarets occasionally to keep your liver and bowels active. When bilious, constipated, headachy, unstrung or for a child, upset stomach, or bad breath nothing acts so nicely as Cascarets. Children love them too. 10, 25, 50 cents.

MOTHER!
"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package. Then you are sure your child is having the best and most harmless physic for the "little stomach, liver and bowels." Children love its fruit taste. Full directions on each bottle. You must say "California."

Women of Canada Who Testify

Tillsonburg, Ont.: "Ever since I can remember, Dr. Pierce's medicines were used in our family at home and they never failed to give good results. The Golden Medical Discovery was used as a tonic and blood purifier and for bronchial trouble, and it proved excellent. I have personally taken the 'Golden Medical Discovery' for bronchitis, the favorite prescription to build me up when I was run-down and they both were very beneficial. Mother always bought Dr. Pierce's medicines for me and I feel safe in recommending all of Dr. Pierce's medicines knowing them to be good."—MRS. CLIFFORD MITCHELL.

Central Butte, Sask.: "I have used Dr. Pierce's Medical Discovery for a number of years and am pleased to recommend it to all who are afflicted with any ailment. As I used it for my boy for tuberculosis of the knee joint. My neighbors and friends were surprised with the results. In fact, I do not think he would be alive today had it not been for the 'Medical Discovery.' I also keep it on hand for coughs as it differs so from other cough medicines, instead of upsetting the stomach as most cough syrups do it is good for the stomach. I only wish I had known about Dr. Pierce's medicines sooner."—MRS. PERCY WOOD.

When you take Golden Medical Discovery, you are getting the benefit of the experience of a doctor whose reputation goes all across the world. Still more, you get a temperance medicine that contains not a drop of alcohol or narcotics of any kind. Long ago Dr. Pierce combined certain valuable vegetable ingredients—Pleurococcus, the use of alcohol—so that his remedies always have been strictly temperance medicines.

When you take Golden Medical Discovery, you are getting the benefit of the experience of a doctor whose reputation goes all across the world. From the Diary of A Hudson's Bay Clerk in the Seventies

By OGE-MAS-ES (Little Clerk).

(Copyrighted)

We had the district accounts at the Pas that winter and if ever an H. B. clerk was sick of book-keeping it was the man. My Chief (dear A.M.) was a splendid fellow, but disliked all hardship and exposure, while this to me was meat and drink. By dint of much coaxing I had the remnants of what train dogs were left after six trains (four dogs to a train) had been picked by the native drivers—a wretched outfit. They would stop when I jumped on the toboggan, but by dint of good feeding and much running they were by no means the worst team in the spring. Corriece was the foregoer, and I scoured him in trade from Batese for a fat, lazy husky, and wondered at my own luck and also why he was fool enough to trade even. I soon found out; for on a trip to the Mountain there was a long musk; traverse and just one decent stop to boil the kettle. On reaching this spot with an appetite sharper than a wolf, I sang out, "Wino, Corriece!" He turned his head, gave me a cunning look, then bolted like a Jack rabbit, and it was at least two hours before I got near the sleigh again, with feelings too deep for words.

I realized then why Batese traded even (as this it appears was his usual game), but it was not until the following winter that I got even with Corriece, when, with man against dog, I ran him down between Cumb-hand House and Fort La Corne, and that, second to take the heart out of him. But I am a long way off from those plagued district accounts. It is always the way in the north; start any subject you like and it will always end in Dog, and yet again Dog. I have heard Donald A. Smith when he was Governor of the Company, with other high officials at the Fort Garry mass, when the desert was put on the table and the wine glasses filled, all vying with one another as to the merits of their particular dog-trains, and I think one must hand it to Donald A. for the best yarns. Perhaps that is why he was made top-dog.

We had several outposts from The Pas that winter and when the accounts got too much for me, A.M. would suggest that an inspection should be made and the native trader checked up. It was good work for far and I thoroughly enjoyed the

trips here and there. There was but one fault, and that was that they were too short. However, before spring, I had a ten-day tramp and that eased the tension for a while.

We found there was likely to be a great shortage of ammunition in the spring, especially if the rat hunt was big, and all signs pointed that way. The nearest point to a further supply was Grand Rapids Post at the mouth of the Saskatchewan River, something over 150 miles away by trail. The snow was deep and no trail broken through, but it was that or nothing. So A.M. decided to send six dog-trains and I volunteered to lead the party. We started out early on a heavily loaded with dog-fish, as we had to catch on the trip down, there being no supply at The Rapids. It took us four days to reach the post, when we spelled a day, then loaded our sleds with 400 lbs. each, consisting of dog food, provisions and building on top of that, and started for home.

It had snowed I think every day since we left The Pas. The weather was awfully cold and windy, with no sign of the trail we had broken coming down. Cedar Lake was the only decent bit of going on the whole trip, but the river was over waist deep in soft heavy snow, and every driver had to use a pushing stick and work equally hard with his dogs. We had a spare man to break track ahead, but I also found all must take turns, as one hour or less in front of the dogs was enough for any of us, and then you would be wet to the skin with the heavy exertion.

Five nights had passed on our homeward journey and our rations were about done, both for men and dogs. There were still some getting into of hand and mutton. My own feet were cut to pieces with the snowshoes, but I did not dare show any feeling in the matter, for at the least sign of weakening on my part the loads would have been chucked on the ice. There is only one cure that I know of for sore feet in snowshoes, and that is to treat them like your hands, keep away from the fire and at every stop take off your moccasins and duffles, then wade in the snow till your feet get numb. (To be continued)

Consider That Veterans Are Absorbed Into Civil Life

No Special Provision Will Be Made For Finding Work For Returned Soldier.

Winnipeg—A special despatch to the Free Press from its Ottawa correspondent reads: "Whatever Federal methods are devised during the coming winter months to cope with the unemployment situation, which threatens to be acute in the urban centres, they will be adopted without particular regard for the returned soldier. Apart from the care of seriously disabled men, which will be continued under the Department of Soldiers' Civil Re-establishment for some time yet, the returned soldier in future will have to fend for himself, and is looked upon as having been absorbed into the civilian life.

Any means which are devised by the federal authorities to deal with the unemployment situation will have regard for the unemployed as a whole and without distinction. The assistance provided to help unemployed returned men over last winter expired in March last (for single men) and

There is now no parliamentary provision for a continuation of the assistance during the coming winter and the machinery for doing so has been pretty well scrapped. During the past summer, it is stated, there were few cases of unemployment among returned men.

Unemployment is now largely a provincial matter. The federal authorities, however, undertake to pay half the cost of the upkeep of the provincial labor bureau, while the labor department assists in the compilation of statistics showing at what points and in what particular industry labor is required.

Wrangel's Troops Fought Well

Praise Heroism During Days of the Crimean Disaster.

Constantinople.—Allied officers here praise the heroism of Gen. Wrangel's troops during the days of the Crimean disaster. The cavalry divisions of sub-Generals Markoff, Barbovitch and Skolov suffered terrific losses in defending Perekop, which it is believed would have held out if Wrangel's forces were not outflanked on the frozen peninsula. The Nicomedeus regiment was virtually wiped out, there being only five survivors.

Potatoes At Cost.

Hamilton, Ont.—Two carloads of potatoes will be bought by the Board of Control of this city and sold at cost to the citizens as an experiment.

United States Farmers Would Hold Wheat

Advised to Not Market Grain Until Price Is Restored.

Kansas City.—A nation-wide producers' strike, to combat the falling prices of farm products, was urged by a call sent out by the National Farmers' Union to its local units throughout the country. The proposed strike was urged in retaliation for what the convention considered abnormal deflation in prices of farm products, through which it was asserted the farmers of the United States have been robbed of one billion dollars in reduced value of products now on hand. All farmers were urged to hold this year's production from the markets until "profit-making levels" were restored.

The action of the National Farmers' Union was in line with a "wheat strike," called several weeks ago by the Wheat Growers' Association of the United States. Delegates asserted a considerable quantity of this year's wheat crop was being held off the market by farmers.

Defence Problems

Imperial Matters Will Be Discussed At Forthcoming Meeting of Prime Ministers.

London.—Right Hon. Andrew Bonar Law explained in the House of Commons the meeting of prime ministers of the empire summoned for June next. It will be a meeting along the lines of the Imperial war cabinet meetings which took place in 1917-18. Mr. Bonar Law added that this is a general agreement on imperial defense matters which will require joint examination in the near future. "But I am not yet able to say precisely what arrangements will be made for their discussion."

Critical Situation In India.

London.—In the House of Commons, Hon. Edward Samuel Montagu, secretary of state for India, admitted that a dangerous situation existed in that country and said that the Government there would be left perfectly free to take whatever steps it deemed necessary in dealing with it.

Penitentiary Reforms

Changes in Administration Likely as Result of Work Done By Royal Commission.

Ottawa.—Many important changes in the administration of Canadian penitentiaries are likely to be made as the result of the work now being done by the Royal Commission named by the Government some time ago to draft new regulations for the penitentiaries. Several studies of the commission already have been held, and some valuable suggestions have been received from all classes of Canadian officials.

The commission, before drafting its findings, will visit New York and learn what it can from people responsible for the administration of United States penal institutions.

Want Explanation.

The Hague.—The "Dutch Government has been asked to explain to Parliament why former Crown Prince Frederick William of Germany is permitted to carry on constant communication with the German Monarchists.

Cost Of Prince's Visit.

London.—One hundred thousand pounds sterling, the cost of the visit of the Prince of Wales to the country, has been voted by the Government of New Zealand.

No Change in Vote.

London.—Results of the Scottish prohibition poll so far show no change in 106 districts; 24 districts have voted for limitation of licenses and 23 for no licenses.

Urge Government Economy.

London.—The House of Lords has adopted a motion pressing the Government immediately to reduce the huge staffs in its departments.

W. N. U. 1343

A Friend of the Farmer

HON. GEO. LANGLEY.
Minister of Municipal Affairs in the Saskatchewan Government.
Mr. Langley has always been in evidence as a supporter of advanced legislation, and a keen defender of the rights of the farming community.

Watch Sale of Narcotics

Severe Penalties Provided For Practitioners Who Evade Law.

Ottawa.—All physicians, dentists, veterinary surgeons and retail druggists who obtain supplies of narcotics in any quantity to administer directly to their patients or in connection with practice are considered to be engaged in the distribution of these drugs, and under the amendments made to the act governing drugs at the last session, it is necessary for such practitioners to make returns to the department of health. Forms have been sent out by the department to all engaged in these professions, and heavy penalties are provided under the act for those neglecting or refusing to furnish the declaration in question.

The penalties which, it is stated will be strictly enforced by the department are a fine of not less than \$200 and costs and not more than \$1,000 and costs or one year's imprisonment or both fine and imprisonment.

Saskatoon Winter Fair.

Saskatoon, Sask.—The most successful winter fair in the history of Saskatoon was held last week. Showmen of heavy draft horses were particularly good, and over \$6,000 in prizes was distributed. Albert Robbins, of Laura, Sask., won the boys' calf competition. James I. Moffatt, of Carroll, Man., was awarded the grand championship in fat steers. Foltlett Brothers, of Duval, Sask., took a large number of prizes in sheep classes.

The annual sheep and swine sale was held. The movement in hogs was not very brisk, but there was considerable trading in sheep, the highest ram bringing \$140.

B.C. Salmon Pack.

Vancouver, B.C.—According to a statement prepared by the British Columbia Salmon Packers' Association the total pack for 1920 is 1,177,045 cases. Prevailing market prices would give this season's pack a selling value of \$13,397,719. Last year's pack amounted to 1,393,556 cases.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Vatemann, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly ill with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and several medicines, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of these terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The T. J. Milburn Co., Limited, Toronto, Ont.

Should Control the Marketing of Wheat To Final Consumer

Embargo on Hides

Canada Endeavoring to Prevent Introduction of Animal Diseases Into Country.

Ottawa.—It is announced by the Department of Agriculture in order to prevent the introduction of animal diseases into Canada, a ministerial order governing the importation of hides, skins, etc., has been passed. These regulations, which come within the Animal Contagious Diseases Act, are administered by the Veterinary Director-General. Under conditions stated in the order, the importation of hides of horses, cattle and buffalo, calf skins, sheep skins, goat skins, deer skins, glue stock, bones, hoofs and horns into the Dominion of Canada from any other countries of Europe, Asia, Africa, South America, Central America, Mexico, New Zealand and Australia is prohibited. Regulations governing the importation of wool and hair have been passed with the same purpose in view.

Soviet Government For Crimea.

London.—A Moscow Communiqué received here by wireless announces that re-organization of government in the Crimea already has been begun by the Bolsheviks.

"Our troops occupied Sebastopol on Nov. 14," says the statement. "Revolutionary committees are being formed at Sebastopol and Yalta, and order is being restored. We are registering tens of thousands of Gen. Wrangel's former soldiers, who abandoned their general."

Buy Subs From Britain.

Santander, Spain.—A squadron of six submarine chasers purchased by the Spanish navy from the British admiralty has been delivered here. All of them are of the "Wasp" type.

Calgary, Alta.—"To say that Alberta farmers have gone 'on strike' is a gross misrepresentation of their position," remarked C. Rice-Jones, general manager of the United Grain Growers, in an interview here. "It is a deliberate attempt to put them in an entirely wrong light," he continued.

Mr. Rice-Jones stated that farmers had a perfect right to market their wheat in such a way as they could get the possible price for it, and because they studied the market and because they refuse to put all their wheat on the market at one time of the year, he could not see how any interpretation could be placed on it as a "strike."

"The fact of the matter is," he said, "that before the price was fixed because of conditions farmers were unable to avoid, they were forced to market a large portion of their wheat in the fall, when the price is always down, a considerable portion of it, no doubt, passing into the hands of speculators who hold it until the spring, when they are able to sell it at a considerable profit. It is, therefore, very gratifying to see that the farmers this year are, as far as they can, sending their wheat to market in such a way as they will be able to get the best possible price for it. It is not a question of any organized plan that will mean that the wheat will cost the consumer a great deal more, but to save as much of the real value of the wheat for the grower as possible."

Referring to the question of the co-operative marketing of wheat, Mr. Rice-Jones stated that he thought this was probably the most important thing before the farmers at the present time. Farmers should undoubtedly control the marketing of their wheat, to the final consumer, he said, through some system of pool marketing.

Abolish Blue Monday

Are you discouraged with the color of your wash?

Next week use

KEEN'S OXFORD BLUE.

Counter Check Books

Provide the only means by which you can keep an absolute accurate check on your sales. The new luxury line and sales tax makes it necessary to keep such a record. We make sales books suitable for any line of business, with either duplicate or triplicate copies.

TRIPLICATE BOOKS

There is a heavy demand just now for triplicate books. We make a great variety of triplicate books, both in separate carbon leaf and book style. Write us for sample and prices before placing your next order, or ask any of our agents to give you this information.

Vegetable Parchment Butter Wrappers

We are in the best position of any firm in Canada to fill your order promptly for parchment butter wrappers, either printed or plain. We are in a position to fill this branch of order, and have special facilities for printing wrappers in either one or two colors of ink.

WAXED PAPERS

We also manufacture a complete line of waxed bread and meat wrappers, plain or printed, waxed paper rolls for house use, and waxed papers for all purposes. Our equipment is the most modern and complete to be found in Canada. Our goods are first class and our service is prompt. Let us prove this to you on your next order for Counter Check Books, Parchment Paper, or Waxed Paper.

For quotations apply to publisher of this paper.

SKATING RINK

We are informed that a movement
is on foot to build a skating
rink in town. A skating rink
in town of this size, is necessary,
and should receive the support of
every citizen. While catering
for amusement for the up-
grown people of our community,
we should also remember the
young folks in our midst. There-
fore boost for a skating rink for
the boys and girls.

Tuesday, Nov. 30, will be St.
Andrew's Night the night of
nights for Scotsmen. In honor
of Scotland's patron saint in
every city, town or hamlet—in
fact wherever there be two Scots-
men—this night will be given
over to a celebration.

BOLSHEVISM

There are many people of christian
character even in our churches,
whose "labor" sympathies incline
them strongly toward the present
Government (some would prefer
to call it misgovernment) of Russia.
Again and again such people
repudiate charges against the
Bolsheviks, on the ground that
they are based on statements
contained in a "capitalist" press.
The following lines from "The
Westminster Gazette," (London,
Eng.) may carry weight with all
desiring simply to know the
truth:—

"Mr. H. G. Wells was scarcely
across the Russian frontier before
he announced that he found
conditions in that country to be
almost too horrible for description.
He seems to have no hope of
its salvation during the present
political pestilence, and to be
afraid that when that visitation
is at last over, all the intellectuals
of Russia will have been
wiped out, and there will be no
one left to re-organize civilisation.
He has elaborated with Maxim
Gorki a scheme for colony or refuge
for the intelligentsia, to which
they can retire on condition
that they take no part in
politics while the present regime
lasts. We wish Mr. Wells and
Mr. Gorki every success, but we
are a little afraid that the Bol-
sheviks may not appreciate the
judgment of their mentality
which the creation of an asylum
for the sane, definitely so labelled
would seem to imply."

HAVE YOU BECOME A MEMBER OF THE CURLING CLUB?

From information to hand we
believe that it will not be long
before the curling season opens,
and for the benefit of the new
members we give the following
information:

Roarin' Game.—The name
"roarin' game" was given to curling
because of the fact that the
side which lost always put up a
big roar.

"Lead."—(This is especially for
the new members). Lead is the
first word of "Lead, Kindly
Light," the curlers' favorite hymn
adopted because a skip always
wishes the "lead" to "kindly" send
one down "light."

"Curling."—A state of temporary
insanity. The only kind of
insanity which cannot be cured
by ice.

NOTICE

In the Estate of Herbert Stanley
Kinch late of Cereal, in the Province
of Alberta, Farmer, deceased.

Notice is hereby given that all persons
having claims upon the estate
of the above named Herbert Stanley
Kinch who died on the 1st day of
November, 1918, are required to file
with Walter M. Crockett Youngs-
town, Alta., solicitor for the Executor
by the 10th day of January, 1921, a
full statement duly verified of their
claims and of any securities held by
them, and after that date the Execu-
tor will distribute the assets of the
deceased among the parties entitled
thereto having regard only to the
claims of which notice has been so
filed or which have been brought
to his knowledge.

Dated this 10th day of November,
A.D. 1920.

Walter M. Crockett,
Solicitor for the Executor
Henry Kinch.

ADDRESS:—Youngstown, Alta.

THE MILKING OF COWS

Shall cows be milked twice or
three times a day? To the average
reader this may seem of small
concern. To the farmer and dairy-
man it is a question of considerable
interest. Tests have recently
been made in Nova Scotia, Que-
bec and Ontario. Professor Barton,
of Macdonald College says
that it has been found from the
standpoint of economy and safety
that a cow giving 60 lbs. of
milk a day should be milked three
times. Both Professor Trueman
of the Nova Scotia Agricultural
College and Professor Barton are
agreed, however, that unless the
udder is over distended there is
little or no advantage to be gained
by milking three times a day.
These authorities are quoted in
the September number of the Agri-
cultural Gazette of Canada. Pro-
fessor Wade Toole also contrib-
uted to a solution of the same
problem by giving results of tests
made at the Ontario Agricultural
College. The tests are to be con-
tinued and Professor Toole hopes
to be able to give a more definite
opinion another year than he does
at present. In the meantime he
shows that three high-class pure-
bred cows gave more by thrice
than by twice milking a day. His
present conclusions, however, are
the same as those of Professors
Barton and Trueman.

TAX SALE
Sale of Lands in the Municipal District
of Coltholme, No. 243, for Arrears of
Taxes.

NOTICE IS HEREBY GIVEN THAT
certain lands in the Municipal District
of Coltholme, No. 243, will be offered
for sale for arrears of taxes and costs,
unless the said arrears of taxes with
costs are paid before the date of the
sale. The sale will be held on Satur-
day, the eleventh day of December,
1920, commencing at 10 o'clock in the
forenoon, in the Assembly Hall of the
Chinook Consolidated School.

A full list of the said lands may be
obtained on application to the Secre-
tary-Treasurer of the Municipal Dis-
trict, or may be seen in the issue of
the Chinook Advance dated October
31st, 1920.

Dated at Chinook this 18th day of
October, 1920.

LORNE PROUDFOOT,
Secretary-Treasurer.

NOTICE OF IMPOUNDMENT

NOTICE IS HEREBY GIVEN UNDER
Section 309 of the Municipal Districts
Act that one dark bay gelding, weight
about 1,100 lbs., small white spot on
forehead, no visible brand, wire out
inside left fore leg, was impounded in
the pound kept by the undersigned on
the SW quarter of section 9, township
27, range 7, west of the fourth meri-
dian, on Monday, the 28th day of June,
1920.

Dated at Big Spring this 17th day of
September, 1920.

S. W. WARREN,
Poundkeeper.

TAX SALE

Sale of Lands in the Village of Chi-
nook, Alberta, for Arrears of Taxes.

NOTICE IS HEREBY GIVEN THAT

DEPARTMENT OF AGRICULTURE for ALBERTA

In view of the present demand for breeding sows the De-
partment of Agriculture has arranged with the Live Stock Ex-
change at Edmonton and Calgary to select the best young sows
from those coming to the Stock Yards. Those who wish to secure
one or more may write directly to the Secretary of the Edmonton
Live Stock Exchange, Ltd., Stock Yards, Edmonton, or to the Secre-
tary of the Calgary Live Stock Exchange, Alberta Stock Yards,
Calgary. A deposit of fifteen dollars should accompany the order
balance to be paid on delivery. When ordering specify weight
and breeding desired.

The DEPARTMENT OF AGRICULTURE will have a representative at
the Yards to assist in the selection of the sows.

Hon. Duncan Marshall,
Minister of Agriculture, Edmonton, Alta.

Rural School System In Western Canada Is Most Efficient

One of the first questions the prospective settler asks in a new country is: How are the schools? What sort of education will my children get?

Its rural schools are one thing that Western Canada takes especial pride in, and the new settler or his wife need have no qualms that the education of their little ones will not be looked after.

The school system of the Western Provinces is acknowledged to be equal, if not superior to any on the continent, and children in any school district are seldom more than two and a half miles from school.

The growth of rural schools may be demonstrated by quoting a few figures given by the department of education of the province of Manitoba. In 1900 the school population of the province of Manitoba was 25,077; in 1919 this had increased to 138,352. Thirty years ago there were 554 school buildings with 712 departments; last year there were 1,784 school buildings with 3,256 departments. Of these 1,784 school, 41 are

of log, 41 of them are of stone, 1,252 brick and the balance frame. Progress in educational improvement is still increasing. During the first ten months of the present year, debentures amounting to nearly \$1,800,000 have been issued for general school purposes and everywhere existing schools are being enlarged to meet the increased attendance.

Wherever the close of settlement justifies it, consolidated schools are being established. The enlarged attendance resultant on these consolidations allow larger and better school buildings and higher grades of education. The merging of several schools into one, naturally, means that pupils live farther away. This is remedied by having vans, either horse or automobile, supplied by the government, to bring the pupils to school and to take them home again. So successful has this plan been that today there are in Manitoba more than one hundred consolidated schools. In the year 1905 the first consolidation in the province took place

Soldiers' Graves Will be Marked

Commission Will Erect Headstones in 1,200 Cemeteries.

Some six thousand graves, located in 1,200 cemeteries scattered throughout the Dominion, will be marked with suitable headstones, beautified, and given perpetual care by the Imperial War Graves Commission. These are the graves of members of a Canadian Expeditionary Force and of the Royal Air Force who died in Canada on their way to or return from the front. Included in the number are a few graves of alien enemies who died during internment, and which must, under the terms of the peace treaty, be looked after.

It was decided that the Canadian Government, through the department of militia and defence, would act as agents of the Imperial War Graves Commission in doing the work. The commission is operating under a royal charter, and not only the imperial but also the governments of the dominions participate in its work, the expenses being borne by the various countries in proportion to the number of their dead.

As far as Canada is concerned, the work of the commission will consist largely in marking graves of soldiers with appropriate headstones and arranging that they be cared for. It is not the intention to move bodies or to gather them into special cemeteries, but where a number of them are buried in one place, it may be possible to provide some central memorial to mark the spot, in addition to the headstones. As in France and Belgium, where the commission has been operating for some time, the keynote in the marking of graves will be equality and uniformity of treatment for all. The rank of a soldier will make absolutely no difference in the location or marking of his grave.

World's Largest Car Ferry Will Carry Trains Forty-Eight Cars in Length.

The new railway ferry line, which is being planned to run between England and Sweden, will be the longest in the world. A tremendous ferry boat with engines furnishing about twelve thousand horsepower is to travel daily between the two countries, bearing upon its huge decks freight trains forty-eight cars in length. Besides this there will be provisions for taking travellers from the first to the fourth class, together with dining-rooms, promenades and other agreeable features. The journey requires thirty-three hours. After arriving on land the freight trains at once proceed upon the English or Swedish tracks as the case may be. It is obvious that a tremendous saving both in time and in labor can be thus accomplished.

A Fire Every Minute.

A fire rages somewhere every minute of every day in the United States. Most of them are preventable, Charles E. Case, a New York insurance man and fire prevention expert, told the Chamber of Commerce at a "Fire Prevention" luncheon at the Hotel Baltimore. The epidemic of preventable fires the last year was attributed by Mr. Case to easy-going wastefulness because of prosperity. "It is as if the people of the United States squandered \$90,000,000 and sixty human lives each day," he said.

Books and Motor Cars

Canada Has Many Cars But Few Libraries.

"I never saw a country where there were so many motor cars to the population as in Canada, and yet I never saw a country where there were so few libraries," said Principal Bruce Taylor, of Queen's University, speaking to the Women's Canadian Club in London, on the influence of the home in education. Dr. Taylor emphasized the value of reading in education, and mentioned the great influence which Henry Drummond's "Natural Law in the Spiritual World" has on the homes of Scotland, in turn, on the homes of the ministry. "You can't make a greater mistake than to let a child not to read a certain book. If there is something you don't want the child to read, lose the book, but never tell him not to read it. What I advise is to turn the child loose into the library and he will find what he wants, and won't see what you don't wish him to see."

Her Preference.

Politically Inclined Youth.—Do you think the front porch campaign is effective? Frivolous Flapper.—No. A trip to the movies counts much more with me.—Judy.

For Women's Welfare

MRS. W. E. SANFORD.
Dominion President of the National Council of Women.

Use Your Local Newspaper

Manitoba Free Press Urges Retailers To Advertise In District Papers.

Trade marked and nationally advertised goods have solved a good half of the shopper's problems. Time is saved in the selection of articles, which can be decided upon without even a trip to the store. The certainty of getting quality goods at prices identical with those prevailing all over the continent is still another advantage. And, in spite of the somewhat general conviction to the contrary, national advertising lowers the cost of the goods to the consumer and keeps it lower. The briefest survey of price increases in recent years will prove beyond question that packaged, trade marked and nationally advertised goods have not advanced in anything like the same proportion as bulk products.

Not only consumers, but many retailers, are by no means convinced of these truths; and in order to familiarize the merchants of Western Canada with the advantages of carrying and pushing the sale of nationally advertised products the Winnipeg Free Press has commenced publication of a Retail Merchants' Monthly. It is a new departure in Western journalism, and although published in the interest of one newspaper its policy is broad enough to embrace the general welfare of the press of Western Canada.

An editorial in the November issue, headed, "Use Your District Newspaper," says in part:

The large advertisers are rapidly coming to the conclusion that huge sums spent on national advertising are largely wasted unless the message reaching the consumer is linked up with some store where the product can be bought. The extent to which this is being realized can be gathered from the newly announced sales policy of the Sherwin-Williams Company. Fully fifty per cent. of their appropriation for sales promotion (including advertising) will be devoted this year to localized "tie-up" helps which appeal to the dealer and enable him to identify his store locally as the Sherwin-Williams agency.

The Sherwin-Williams company place special emphasis on local newspaper advertising, providing electrotype in which the dealer's name can be inserted, and suggesting the most effective dates for running the advertisements, so as to tie up with the national campaign.

In Western Canada there are several hundred local newspapers whose influence in their particular districts cannot be approached by mediums of any other kind. Neither the larger dailies nor the national weekly monthly magazines can vie with them for reader interest in their immediate neighborhood. Many dealers do not realize this. They rely upon national advertising conducted by the firms whose agencies they handle to pull business to their stores, forgetting that in order to secure the utmost results from that advertising, which costs them nothing, they must not only establish their store in the public mind as the authorized agency for those products, but also should give local stimulus to the general appeal. This can only be done effectively by local advertising in their district newspapers. Display of the goods in store windows or on store shelves is the last contact that can be made with the purchaser before the sale is made. It imparts the final impulse in a long chain of suggestion compelling the consumer to purchase a certain brand of goods.

Barents, in 1596, were the first explorer to winter in the Arctic.

Canal locks were invented in the fifteenth century, both the Italians and the Dutch claiming the honor.

Strong Exhibits Being Sent From West to Chicago Livestock Show

All the prairie provinces this year are sending strong exhibits to the Chicago Livestock Show. Alberta is sending cattle through its university. Manitoba is competing in most of the classes, while arrangements for sending an exhibit of choice livestock from Saskatchewan are being made. The selection of the exhibit from this province is in the hands of a special committee appointed by the Saskatchewan Livestock Board.

The entries which include horses, cattle and sheep, are widely distributed throughout the province, from Lloydminster in the north to Weyburn in the south, according to the provincial livestock commissioner, Mr. J. G. Robertson. The three heavy breeds of draft horses, Clydes,

Percherons and Belgians, are those most largely represented. Cattle entries have been made from Shorthorns and Aberdeen-Angus, and sheep entries for Oxford and Shropshires.

There is still a final weeding out to be made, but, "one thing is certain," added Mr. Robertson, "when the final selection from these animals is made, the province will be represented by a very creditable exhibit. All the breeders know that competition will be very keen, and they are making no rash claims as to whether they will win many ribbons or not; but the public value will be very considerable and will have a beneficial effect in demonstrating to the public in both Canada and the United States that Saskatchewan possesses first-class livestock."

Seed Fair Great Success

Southern Alberta District Expected to Take the Lead in Seed Production.

The second annual seed fair of the Matzwin Agricultural Society has just been held at Brooks, Alberta, and proved to be a great success. At this fair are shown the exhibits of the farmers of the irrigated lands in Southern Alberta and the quality of the seeds even last year at the first fair, proved that this district is destined to become one of the foremost seed producing areas in the Dominion. Seeds exhibited first at the Matzwin Fair last year brought home a large percentage of trophies from well-known American and Canadian Seed Fairs. This year there were three times as many entries made as at last year's show and the class of exhibits was uniformly better. Twenty of the prize-winning exhibits are being sent to the Chicago Seed Show to be held in conjunction with the International Stock Show in that city at the end of the month. The quality of the Alberta grown seed is such that the officials of the Matzwin Agricultural Society state without any hesitation that they "are bound to be in the money at Chicago on more than one of the exhibits that are being sent."

Women House Builders

Private Company Will Undertake Business on Large Scale.

A firm of contractors, styling themselves women builders, has hung out its shingle in London, England. Started by Mrs. Oliver Strachey, who has just finished at Haslemere a house of five terraces, or hand clasp, for which she was her own contractor and employed female labor. Women rammed the walls, shovelled the earth, dissembled the bricks. Men were called in to lay the bricks for the chimney and to make the doors; but there seems no substantial reason why the future should not bring women bricklayers and carpenters also. For another house on which she is engaged Mrs. Strachey has increased the number of women workers. The private company now being formed proposes to undertake business on a bigger and more general scale in the spring.

Manitoba Mining Boom.

The greatest prospecting rush in Canada since pre-war days, according to Arthur J. Colette, prospector, will be made in the spring of 1921. Finds in the vicinity of the Flin Flon, Herb and Copper Lake districts have been reported, and traces of gold, silver and a good grade of iron have been struck on both sides of Lake Winnipeg. The extent of the mining next year depends upon the building of a railway to the Flin Flon district, but even without a railway prospecting will increase to an enormous extent.

Wasting Coal.

A lump of coal is a receipt from the sun for a certain amount of energy. It will cash in, if liberally discounted, at any coal burning plant, but at its very best it is a wasteful and cumbersome medium. Three out of every five tons at least of coal burned in locomotive and factory are wasted, charge. It is said that this waste represents annually in this country more than \$300,000,000.—Detroit News.

To say that a man eats salt is the same in certain parts of Africa as saying that he is very rich.

Salt water extinguishes fire much more quickly than fresh.

Small Fruits on the Prairies

Big Yields Recorded Almost Within the Arctic Circle.

It has long been proven beyond doubt that all kinds of small fruits thrive exceedingly well all through Western Canada. Big yields have been recorded and are being made in the Arctic Circle, while in the more temperate parts, gooseberries, currants and raspberries form part of an increasing number of farmers' gardens.

Throughout the Dominion the various government experimental farms have been giving a considerable amount of time to the study of the varieties best suited to different parts of the country and the results of these investigations are always interesting and instructive.

At the Central Experimental Farm, the average yield of the Herbert raspberry for two years on one row ninety feet in length was at the rate of more than two hundred and five bushels per acre. Under field conditions cultivated raspberries produce from fifty to hundred bushels of crop per acre according to the season. Gooseberries at forty pounds per bushel, yielded at the rate of nine hundred and nine bushels to the acre. Red currants gave two hundred and two bushels to the acre in one instance, and four hundred and nine bushels in another.

Where Scenery Runs Riot

Pick Flowers in December at the Pacific Coast.

How would you like to pick flowers from your garden in December? Well, you can at the Pacific Coast in a climate so mild and temperate that it keeps you guessing when fall ends and winter begins; where scenery runs riot and golf is played on the finest green courses every day of the year; where you may hunt, fish, boat, ride or motor on roads winding past towering mountains, rivers and lakes with ever changing scenery.

Rent a beautiful bungalow for the season or stay at one of both the magnificent hotels, the Hotel Vancouver of that city or the Empress Hotel in Victoria.

Viewing the majestic Canadian Rockies from an observation car on either of the two beautifully appointed daily Canadian Pacific trains on this line is a sight that refreshes and leaves memories for years to come.

Illustrated literature and particulars will be gladly given by any Canadian Pacific Representative.

Success of Soldier Settlers.

The percentage of failures among the soldier settlers in Central British Columbia has been very low, being only five per cent. out of the total of 1,237 returned men who took land under the scheme of the Soldiers' Settlement Board. Of this small number, wounds and injuries made some physically unfit to succeed. In the Vancouver area, soldier settlers have 7,200 head of livestock, 55,000 head of poultry, and occupy 65,000 acres of land. More than one-fourth of this land has been cleared and a great deal cultivated. To date the settlers have paid back \$600,000 of the monies advanced by the Government to assist them.

A Public Speech.

Bill.—"Have you ever done any public speaking?" Joe—"I once proposed to a girl over the telephone in my home town."—Lehigh Burr.

A fast young man is seldom able to keep up with his running expenses.

Dominion Egg-Laying Contest

Manitoba Hens Take the Lead, With Birds From Other Western Provinces Close Behind.

The Dominion-wide egg laying contest was concluded on October 31st, and the West has proved that it can equal the best poultry bids that the other settled provinces can produce. Private breeders sent pens of ten birds each to the various Dominion experimental farms, where they were kept for fifty-two weeks. During this time all the pens were given an equal opportunity in respect to feed and housing, and every individual hen was trap nested.

Comparing the results from all the stations scattered over the Dominion, the first three pens were owned by Manitoba breeders and the other western provinces were not very far behind. The first award was won by a pen of Single Comb Anconas, which laid 2,041 eggs in the year. While Wyandottes laying 1,842 eggs second, while the third pen laid 1,830.

Woolen Mill for Alberta

British Syndicate Has Decided to Commence Operations Next Year.

That a syndicate of Scottish woolen manufacturers are going to install an up-to-date woolen mill in Alberta either in Edmonton or Calgary, in the spring of 1921, was the announcement made by a representative of the syndicate. A deal has just been closed whereby the British syndicate have purchased the full equipment and machinery of a woolen mill in the province which has not been in operation since the war. The location of the new mills has not yet been definitely decided, but it will be installed either in Calgary or Edmonton. It will mean an investment of a considerable sum of money, and will no doubt be a great boon to the west, and especially to the city in which it is installed. At the present time there are no woolen mills west of the Great Lakes.

Arctic North As a Utopia.

Speaking before the Manitoba Horticultural Society, Professor N. E. Hansen, of the South Dakota Agricultural College, lauded the Arctic north as a Utopia of agricultural, horticultural and livestock possibilities. Years of investigation, he claims, have shown him that fruits can be grown within the Arctic circle, alfalfa produced successfully in a climate where the temperature descends to 91 degrees below zero, and sheep and cattle thrive in the snow and mature free from disease. He urged the transplantation of Siberian alfalfa to Canada, prophesying a yield eight times greater in rich Canadian soil, and a crossing of Canadian sheep with the hardier Siberian breeds.

Portage Seed Grain Fair.

The Portage Industrial Exhibition Association will hold a seed grain fair this winter, probably on December 15. There will be classes for dressed poultry and vegetables. The fair will be held in the Community Hall.

It's only married women who say that all men are alike. Every girl knows at least one man who is superior to all others.

How Bats Avoid Objects at Night

Experiments Prove They Have a Special Sense of Hearing.

The amazing facility with which bats avoid objects while flying in the dark has been explained in a number of ways. Very keen sight, an acute sense of touch, especially at the wing tips or a sense of which we have no knowledge, have all been suggested to account for this peculiarity.

Experiments have been made by Dr. Hanson Hartledge, of King's College, Cambridge, to prove that neither sight nor touch guides bats in their flight in the dark.

On summer evenings pipistrelle bats 100 to 200 at a time, flew through open windows into rooms communicating by a door. When electric light was turned on they all flew in the same direction, but even when the light was turned off they did not seem to be any collectors.

Threads were placed in their paths and yet, in absolute darkness, the bats neither collided nor touched the threads. In the darkness they could tell whether the door was shut, wide open, or just sufficiently open for them to pass.

The bats are believed to be directed by a special sense of hearing and by sound waves.

Rivals U.S. for Autos

Saskatchewan Leads in Number of Telephones and Automobiles Per Capita.

Saskatchewan has been able to boast for some time that it possessed as many telephones per capita as did the United States. It can now boast with equal right that it has as many automobiles per capita as the States of the Union.

The number of automobile licenses issued in Saskatchewan since the beginning of the year up to the first week in September were 59,000. As the population of the province is 1,800,000 this gives every fourteen people in Saskatchewan a car, and that is now the per capita number in the United States. Saskatchewan is also considerably ahead of Canada as a whole and of the principal countries of the world as is shown by the following statement of the number of people per automobile owned in each: Canada 21, Cuba 94, Great Britain 180, Austria 185, France 198, Switzerland 262, Sweden 550, Belgium 625, Germany 866, Mexico 969, Italy 985, Spain 1,380, Russia 12,000, Japan 15,000.

Port Norman Oil.

One thousand gallons an hour is the production of the oil well in the Port Norman district where a flow was recently struck by the Imperial Oil Company. The activities of the company are still progressing, and drillers are full of optimism over the prospects of locating other like wells in the Peace River district where the company is boring on its leases.

Of all sad words of tongue or pen, the saddest are frequently these: "Where have you been?"

The highest elevation of Denmark proper is 600 feet above sea level.

Don't expect presents all the time; occasionally give one.

OPTIONAL ROUTES AND CIRCUIT TOURS

GOLDEN CENTER COUNCIL

The ninth meeting of the council
of M.D. of Golden Centre, No.
272, was held at 13-30-5 on Wed-
nesday, November 3rd, 1920.

Members all present.
Council called to order by
reeve and business transacted as
follows:

Minutes read and confirmed.
Correspondence read and dis-
posed of.
Sale of S.W. 19-30-5 was re-
ferred to solicitor.

Secretary read financial state-
ment and was accepted.

A number of accounts were
passed for payment.

Account of S. McLachlan was
tabled until case of D. N. White
is settled.

Department of Agriculture and
M. Davidson complained of noxious
weeds in 33-4. Communication
was accepted and John Rogers
instructed to inspect.

Assessment of oil and mineral
leases were withdrawn, as is so
late in year.

Assessment of S.E. 7-29-4 was
lowered to \$8.00 per acre and as-
essment of S.W. 7-29-4 was sus-
tained.

W. E. Briggs and E. H. Fulton
were notified to pay seed grain
lien within ten days.

Secretary was instructed to fix
upset price on land in tax sale

list an amount large enough to
cover flu expenses, seed grain re-
lief advances in addition to ar-
rears of taxes and costs.

Councillor McConnell was ap-
pointed deputy reeve.
L. A. Walper was appointed
baillif to seize wheat N.W. 24-30-5
for taxes.

Weed inspector was instructed
to move shack, N.W. 24-30-5, and
burn straw stack.

It was decided for all of coun-
cil attend convention of Associa-
tion of Municipal Districts, with
Councillors Fulton and McIntyre
as delegates.

Delegates were instructed to
present two resolutions to the
convention. First, that section 11
of Municipal District Seed Grain
Act be rescinded and that seed
grain and feed advances have
same priority as taxes. Second,
to request that act be amended so
as to permit railroad fare of dele-
gates to convention to be pooled.

Poundkeeper Walper was in-
structed to sell horse he has in
pound.
Councillor Davidson was ap-
pointed delegate to convention of
Hail Insurance Districts.

A. Cooper was advised would
cancel road diversion, N.W. 27-21-
5, providing he would pay for
transfer.

Secretary was instructed to ap-
ply on arrears of taxes all pay-
ments for road work on time
sheets received by him up to date
of tax sale.

Council adjourned till Wednes-
day, December 1st, 1920.

SOCIAL EVENING

The first of an intended series
of social evenings took place in
Arm's Hall, Chinook, on Wednes-
day evening, December 17, when
the Masons of the local lodge
were at home to the members,
their wives and a number of
friends. The fore part of the eve-
ning was spent at whist. After
partaking of a tasty lunch, all
were invited to assist in an im-
promptu program. Several very
acceptable phonograph selections
added to the pleasure of the even-
ing.

Judging from the many expres-
sions of appreciation and the lus-
tiness with which Auld Lang
Syne was rendered, a repetition
of a similar evening will be wel-
comed.

Ladies Card Club

The Ladies Card Club met at
the home of Mrs. Hinds Thurs-
day evening last when Mrs. Hew-
itt's substitute, Miss Riest scored
the highest having made 144
points. The next and last meet-
ing of the 1920 Card Club will
be at the home of Mrs. Lloyd
Robinson to-night.

The Chinook Agricultural Soci-
ety will hold an Institute meet-
ing on Thursday, Nov. 25, in the
Schoolroom. A. E. Meyer, Super-
intendent of Agricultural
Schools and Farms, and Mr. Mc-
Beath, of Youngstown Agricul-
tural School and other speakers
will address the meeting. A
musical program will be given.
After the meeting a dance will be
held. Music by the Jazz Four.

Pertinent Tips on Winter Vacation Trips

If you are planning a Winter
Vacation Trip and have not defi-
nitely determined where to go,
consult nearest agent of the Cana-
dian National-Grand Trunk
Pacific Railways, or write to Mr.
J. Madill, District Passenger
Agent, Edmonton, Alta. Our
representative will advise and
assist you in selecting the most
attractive and convenient routes
and will be pleased to complete
all arrangements so that your trip
may be one of pleasurable travel
and comfort. If to the East or
the West we can offer you vari-
able routes, or circuit tours, which
has the advantage of furnishing
variety of scenery and new inter-
ests all the way.

Farm Loans

The old, reliable North of
Scotland Mortgage Co. still have

LORNE PROUDFOOT, Agent
Chinook, Alta

HOME IN TIME FOR CHRISTMAS

Taking into consideration the time
required in going from Western Cana-
da to the Old Country and the desire
of providing patrons with the max-
imum of comfort en route, the Cana-
dian National Railways will on De-
cember 8th, 1920, operate from
Winnipeg through to Halifax a special
train to the ship's side of the S.S. "Me-
ganthe", which sails from Halifax for
Liverpool at 10.00 a.m., December 12th.
This "Family Special" will have tour-
ist and standard sleepers, diner and
colonist cars.

The Canadian National Railways are
most anxious to reduce all the dis-
comforts of a long journey to the
comforts that are found and appreciat-
ed in one's own home, and the hope
is that this innovation will be so pa-
tronized by those returning to the "Old
Sod" for Christmas as will decide the
Canadian National Railways making
this an annual event.

Make your reservations early. Full
particulars may be had on applica-
tion to any agent of the company or by
writing to Mr. J. Madill, District Pas-
senger Agent, Edmonton, Alberta.

Christmas in the Homeland

At this time of the year, with
the Christmas season drawing
nigh at hand, our thoughts are
turned to "The Homeland," and
the longing to visit the scenes of
our youth is strong within us.
That fine old Christmas spirit of
"Good will toward men" prevades
the world and our desire to spend
this cherished holiday season
with those nearest and dearest
to us is felt in every heart. Make
your plans now and let us help
you by providing the "Way"
with the greatest comfort and
least possible inconvenience to
you.

Call on the nearest Canadian
National-Grand Trunk Pacific
agent or write Mr. J. Madill, Dis-
trict Passenger Agent, Edmon-
ton, Alberta.
